

## MISSOURI WING SUPPLEMENT 1

### CAP REGULATION 130-2

5 March 2024

APPROVED/R. KIRKPATRICK/CAP/LG

Aircraft Maintenance

### CIVIL AIR PATROL AIRCRAFT MAINTENANCE MANAGEMENT

CAP Regulation 130-2, dated 06 October 2023, is supplemented as follows:

**{14.5.1. Aircrew Survival Kit. Added}** The Aircrew Survival Kit installed in each CAP corporate powered aircraft shall contain the following items:

Item	Qty
List of Contents & Inspection	1
Emergency (Space) blankets	3
Signal mirror	1
First Aid kit	1
Match Safe with matches	1
Compass	1
Multi-function tool/knife	1

The kit shall be inventoried annually and replenished as required. The inspection document shall be placed so that it is visible to the aircraft manager or other aircraft personnel during preflight inspections.

**21. Consolidated Maintenance. Added** When a Missouri Wing (MOWG) aircraft requires maintenance work to be performed, the pilot will obtain approval from the Director of Operations (DO) or DOM before any reposition flight. If the aircraft is located at a facility which can correct the maintenance issue, notify the DO or DOM, who may grant approval for the repairs to be completed at that facility. The DO or DOM will grant approval for the flight or taxi along with the correct mission number to be used. Once approval and the mission number are obtained, the normal flight release procedures will be followed utilizing the WMIRS system.

**21.1. Aircraft drop off for maintenance work. Added** The pilot delivering an aircraft shall provide a copy of the open discrepancy list from AMRAD to the maintenance service facility personnel

**21.2. Aircraft pick up after maintenance work. Added** When the pilot arrives at the maintenance aircraft, they will make sure the closed discrepancy sheet reflects appropriate details outlining what and how the repairs were accomplished. The pilot should physically inspect the maintenance work that was performed on the aircraft. If the work is in question, the pilot must immediately notify the DO or DOM for further direction. The pilot will ensure the logbook has been updated with the appropriate entries for the work that was performed.

JENNIFER SMITH, Col, CAP  
Commander
